German Beers on tap:

SCHOFFERHOFER HEFFEWIZEN is the most popular variant of the Schöffelhofer Classics range. And thanks to a higher amount of hop, it tastes slightly more flavourful than other wheat beers – yet boasts a fresh and tangy fruitiness. Even visually, it is a true delight: Its shiny amber colour is one of a kind.

BUDVAR LAGER The original "Budweiser", this is a Czech Lager with historical pedigree. Golden colour, thick white head, a distinct pure malt aroma with a rich hop accent, unique and very mild bitterness of medium intensity to create a medium to full flavour.

Available in bottles:

ERDINGER MIT FEINE HEFFE (With Fine Yeast) ERDINGER wheat beer with fine yeast is the crowning glory of traditional Bavarian brewing skills. The strength of this classic wheat beer lies in the harmonious balance it achieves between the various aromas.
